IN CONTROL For Workgroups

The total solution to managing your individual and shared goals.

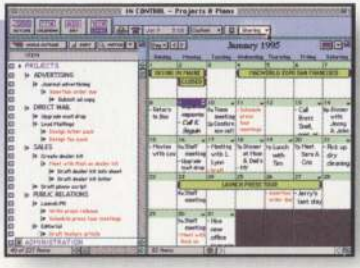
IN CONTROL For Workgroups is the only multi-user planner & organizer that combines project planning, task management and scheduling, so that you and your entire team can manage your objectives in a calendar, outline and to-do list.

IN CONTROL For Workgroups is not your traditional PIM. It unlocks the full power of your network, giving you everything you need to plan, schedule, share and communicate your projects and activities — right at your fingertips!

IN CONTROL For Workgroups lets you do much more than just schedule meetings. It allows you and your team to map out and prioritize your goals, then structure and schedule a plan to achieve them.

The bottom line: You, and everyone you work with, succeeds with IN CONTROL For Workgroups!

IN CONTROL combines the power of multi-user with integrated project planning and scheduling to help you manage, share and communicate information with ease.



"Guaranteed to make you and your Mac a lot more productive."

— MacUser Magazine, June 1993

MacUser

Features That Give You and Your Entire Team the Power to Achieve

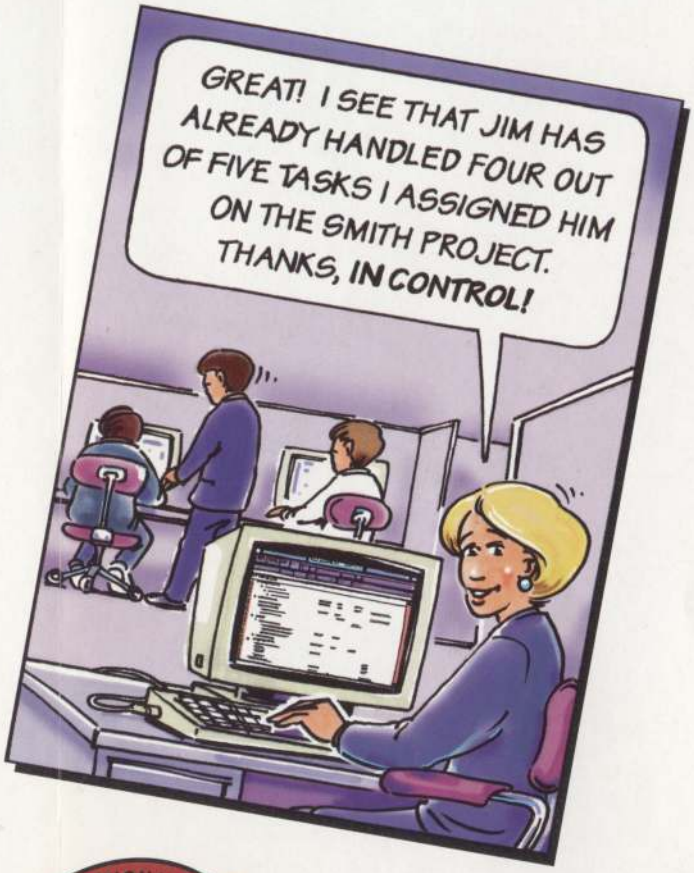
- **Plan, organize, and prioritize** both group and individual projects with IN CONTROL's multi-column Action Outliner.™
- **Coordinate workgroup activities** with daily, weekly and monthly calendars. Plus, manage your own schedule with total flexibility.
- **Share calendars, outlines, to-do lists and schedules** simply by turning on the "Sharing" feature.

"Put this on your to-do list: Get IN CONTROL."

BCS THE BOSTON COMPUTER SOCIETY

— Efram Mallach, The Active Window Boston Computer Society Boston, MA

- **Control what others see by sharing only what you choose,** with whoever you want. Keep both the public and private details of your projects all in one place.
- **List, view and delegate just one day's tasks** with the Daily To-Do List.
- **Assign tasks to the people you specify with ease.** Get instant notification when tasks are completed!
- **Sort your outlines and to-do lists** by priority, date, assigned name — whatever you choose.
- **Inform your co-workers of your day's appointments** with the Daily Schedule. Plus, receive instant updates on day-to-day changes in your co-workers' schedules.
- **Automatically look up contacts** in FileMaker Pro, FastPace Instant Contact™, Touchbase Pro®, Now Contact™ and Dynodex®. Instantly share the information with your co-workers!
- **Easy to install and easy to use!** IN CONTROL For Workgroups uses your existing network software. No separate server required!



UNCONDITIONAL GUARANTEE 60 DAY MONEY BACK

Take no risks. IN CONTROL For Workgroups is backed by Attain's ironclad 60-day money-back guarantee!

Unlock the Power of Your Network to...

- **Manage projects with your workgroup.**
  Give selected co-workers automatic access to your projects. Each team member is instantly notified when tasks are completed, so everyone is always aware of the big picture.

- **Delegate and assign tasks.**
  IN CONTROL For Workgroups lets you delegate tasks from your to-do list to anyone on your network. What's more, IN CONTROL automatically updates you when tasks are completed.

- **Share calendars with your co-workers.**
  Give anyone on your network instant access to calendars — an ideal way to track team meetings, company holidays, the conference room schedule — you name it! IN CONTROL automatically updates others, when changes are made.

- **Reconcile IN CONTROL file changes between your PowerBook and desktop Mac.**
  When you need to work from home or on the road, IN CONTROL For Workgroups lets you reconcile your desktop IN CONTROL file with changes you've made to your PowerBook file, and vice versa. So you avoid wasteful duplication of effort!

> "Managing even a simple project generally involves careful planning: outlining it task by task, determining the order in which to complete tasks, and assigning people to perform the tasks. *This is a perfect job for IN CONTROL.*"
